SCHOOL OFFICIAL ON VISIT TO DISTRICT

PROF. GEORGE E. ANDERSON IS MAKING GOOD AS DEPUTY STATE SUPERINTENDENT

Deputy State Superintendent G. E. Anderson arrived in Tonopah yesterday from Las Vegas, his present headquarters. Mr. Anderson has visited all the schools of Clark county and all but four of the schools in Lincoln county since he left Tonopah in February. He is now on his way to eastern Nye county, where he will inspect the schools of that section for two weeks.

He reports the schools in his supervisory district as being generally satisfactory. The larger high schools, such as Pioche, Bunkerville, Las Vegas, Goldfield and Tonopah, are offering courses that are particularly adapted to the communities they are serving. Mr. Anderson is warm in his praise of our local Tonopah school. This coming from a person supposed to be able to judge the merits of a school, should be gratifying to the Tonopah trustees and teachers.

One very progressive movement in Clark county is the proposed consolidation of two large schools in Virgin valley into one school and five districts in Muddy valley into a similar one district school. In each of these consolidated districts children will be transported to central schools that will be complete from the high school to the kindergarten, including manual training and domestic science. By combining the financial support and teaching forces in this way the resulting schools will compare very favorably with standard city schools.

Supt. Anderson's plan of inspection is to spend a half day in each school room, advising and instructing teachers where necessary and giving actual tests to learn the "class power" in each case. Whenever the trustees can be got together for an evening session this is done and trustees have the privilege of asking questions on school law and management of the schools.

Many districts in this part of the state have not been inspected by any representative for the two years previous to Mr. Anderson's appointment to this position, and there was considerable bitter denunciation of the state plan of school supervision. What the public demands is a reasonable amount of exertion on the part of the school supervisor to comply with the law. Mr. Anderson believes that the contention that the deputy superintendents' positions are sinecures can be dispelled in this section of the state where it has been strong for the past two years, and he is working hard to secure the co-operation of all concerned for better schools.

Because of the great amount of criticism of the school supervision that has been expressed by local school trustees and members of the legislature in the past two years, this paper has been quietly observing the trend of things, under the new deputy superintendent, and it believes it is reflecting the opinion of the country in and around this section when it says that Superintendent Anderson has "made good" in his work with school officials generally, and that our schools will become continually better under his supervision.

PIPES COME INTO VOGUE

VIENNA, Mar. 30.—Owing to the shortage of cigarettes and cigars, the people of Vienna are taking to smoking pipes, which have never before attained any considerable popularity here.

Hot Milk in Mashed Potatoes. "The reason that really good mashed white potatoes are such a rarity in this bitter world is that the milk isn't heated before it is put into them," said the domestic science teacher.

"And yet," said the pupil pensively, "I have seen wonderful cooks put in cold milk."

"But that was while the potatoes were burning hot and on the stove," insisted the advocate of the hot milk dressing. "The potatoes were so awfully hot that they heated the milk and to use also plenty of butter, pepper and salt. Then beat and beat them with a fork. Never use a spoon. You can't beat them too much for their own good."—New York Herald.

MANY FANS WILL GO TO TONIGHT'S BATTLES

GUS RAINIER HAS A GOOD OFFERING AT GOLDFIELD ARENA

A large number of Tonopah fight fans will undoubtedly motor to Goldfield tonight to occupy ring-side seats at Gus Rainier's next boxing show, which is to be staged at the Goldfield Athletic club. About forty sports made the trip to the last show several weeks ago and every one of them came back to Tonopah boosting Rainier and his fighters for the way the show was handled and for the good fights the boxers put up.

Red Howard the Goldfield cyclone is musing up several sparring partners daily in order to condition himself the best possible for Bert Williams of Tonopah. Bert is said to be a good two handed boxer, with a kick in either mitt. Both boys are middleweights and as the winner has been promised a good match, they can be depended upon to step fast right from the start.

A wire received from Milt Livermore's manager in Sacramento, stated that the battler was on his way, but as the boy has not yet arrived, the management isn't banking too much on him and they will have a good man ready to send against Freck Lydon if Livermore fails to appear in time to go on Thursday night. Freck put up a very interesting battle at the last show and has a large following here.

Charley Packey, who meets Frank Barney, is said to be a good tough boy and he will undoubtedly make things quite interesting for the rugged Barney.

Chuck O'Brien is working daily with Danny Mathews. The latter is teaching him some of the finer points of the game and claims he will have O'Brien trained to put up the fight of his life when he sends him in the padded ring against Blackie Myers.

Chalky Miller, a colored lad, will hook up with Kid Nelson and an extra bout will be arranged today so the fans can rest assured they will see plenty of action.

Dick Trounce, who is noted for keeping the boys busy, will referee the bouts and Harry Grier of Tonopah will be official announcer.

ALL HAPPY AT HAPPY'S

Saturday night there will be another dance at the Miners' exchange. The patrons will receive the same attention as before. There has never been a complaint about losing a hat because we have hats of our own and realize their value, therefore, we take the best of care of yours, free of charge. When attending one of "Happy's" dances, time the dances. They will not be over eight to the hour, and you will not fail to notice the free dances that are given as well as the number of encores. The floor has been used for over three years. During this time the most careful attention has been paid to its up-keep and it is considered the best in the state. McGuire's popular orchestra furnishes all the latest music. Ask for any particular piece and he will most willingly play it. Adv. M301

AGREEMENT REACHED

At the rabies conference held in Reno yesterday, at which Dr. Piper of the biological survey force of the United States government, Governor Boyle and the state attorney general were present, an agreement was made whereby the government was to expend \$37,500 in six months and the state of Nevada \$6,500 a month for three months in a campaign for the stamping out of rabies in Nevada.

He Proved His Case. "Human nature is mighty queer, isn't it?" he observed to the other man on the rear platform of the street car. "Yes, I suppose so," replied the other. "People are too sensitive—altogether too sensitive."

"I don't know about that." "Well, I do. For instance, now, you have a red nose. You are not to blame for it perhaps, but you are so sensitive that if I should offer you a remedy for it you—"

"You old loafer, I've a good mind to knock your head off!" blazed the red nosed man as he squared off.

"Told you so," replied the other as he dropped off. "Human nature is the queerest darned thing on earth, and some folks are so sensitive that they'd swallow their false teeth rather than let any one know they had 'em."—Detroit Free Press.

Definition of an Ohm.

An ohm, as defined by the international congress on electrical units and standards, is the resistance offered to the passage of an electric current by a column of mercury of uniform cross section having a mass of 223.0248 grams and a height of 41.8563 inches at the temperature of melting ice.

In the bureau of standards at Washington are four standard ohms so perfectly made and kept that when tested recently their average deviation from their mean value was less than .00001 ohm.

AMUSEMENTS

BUTLER THEATER

The attraction at the Butler this evening will be a Shubert production entitled, "The Siren's Song," featuring Mile Diane and Chas. Trowbridge, in what can be highly recommended as a masterpiece in every sense of the word. The story has in it many scenes that are hair raising, the most prominent of which is the fight which equals that in "The Spoilers" on board an ocean-going steamer, at the climax of which the villain throws the hero from the deck, the latter falling a distance of over seventy-five feet into the raging ocean. To make this scene realistic it was necessary for it to be taken in the dead of night, and although there was a life-saving crew in a boat within reasonable distance to pick him up, it took them over half an hour to find the man because of the denseness of the night. The wrecking of a bank by the duped depositors is another strong scene that equals the mob scene that made a tremendous hit in "The Pit." Both Mr. Trowbridge and Miss Diane are popular Broadway favorites, and the public is sure to be pleased in seeing them. The story has a delightful love theme throughout. Most of the scenes are laid in a small village on the fishing banks of New England. The preliminary reel will be Pathe Weekly. Tomorrow, William Shay and Claire Whitney in "The Ruling Passion," produced in the West Indies.
